

Pixie Bears Solana NFT

Story.

Pixie Bears collection of 5555 Solana NFTs represents a group of bears who had just woken up from a long hibernation and are ready to gather all the resources and never again worry about getting fat for winter. All the bear necessities you might imagine. Honey, berries, and of course, salmon. Fat for life! Safe from those pesky hunters and their guns.

All through unity.

Manifesto.

Wolfs in the sheep's clothing

Pixie Bears is a project that came to our minds in the midst of this rough bear market. Usually, when the bear market comes, Black Hats take advantage of it. We saw that many of our friends new in the space (even some OGs) were hacked or scammed in one way or another, and they lost their honestly earned cryptos and NFTs. Black hats operate usually in patterns and they target victims through various methods.

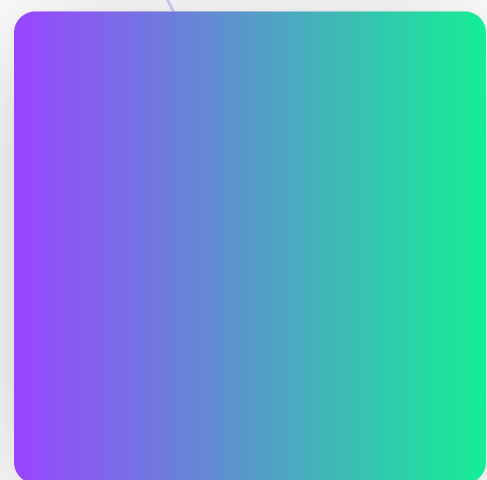

Separating Sheep from the Goats.

We all learn differently. Some of us learn better visually, and others do better listening, but there is something that works best for all. We all learn best from mistakes. It is our goal to build an educational platform where white hats can regularly update the web3 community regarding new threats and best ways of dealing with the aforementioned. Our platform will do exactly that, to simulate RL simulations and documentation of scams others experienced. We want to write the ultimate Pixie Bears memo that will make all bulletproof if followed.

Impossible? Bears don't think so. Power is in our hands. Together we are stronger. Together we are PXBR.

Rarity.

We are rare, you are rare.
Everyone is unique.

BACKGROUNDS

11 x Colors

LEGENDARYS

10 × 1 of 1 Bears.

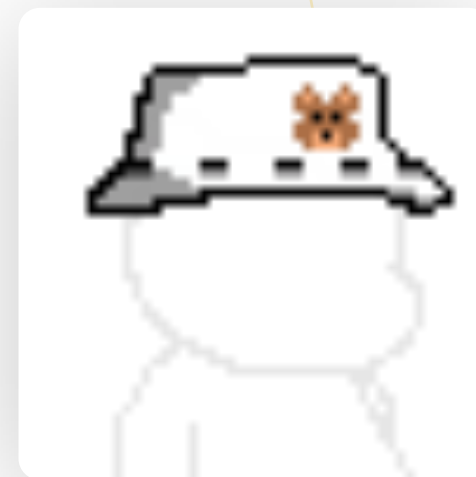

You can call them Papas

FURS

5 x Diferent Bears

Get the Winnie..

HEAD

23 x Head Assets

More to come...

EYES

14 x Diferent Eyes

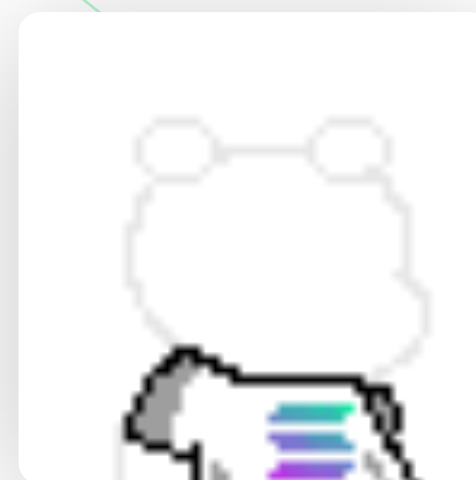

More to come...

MOUTH

13 x Diferent Mouth

More to come...

CLOTHING

24 x Dope Styles

More to come...

Roadmap.

01. Phase

In phase one, Pixie Bears wake up from the long and well-deserved hibernation and share the story of their genius plans of acquiring and HODLing. Taking the Website and Discord out of the den, and putting the worthy membears on the list.

03. Phase

All the Phase one and two work makes Phase 3. That much more beneficial for all. Beneficial how, you may ask. If all the Phase 2 giveaways just did not get you stuffed, we suggest you try a serving of WL Mint, Live Mint, Sold Out, Secondary Market Listing.

02. Phase

After Phase one, it is the time to start giving out rewards for the members who stood out with their commitment vigor and of course good memes. in Phase two. Creative-hearted membears will be rewarded handsomely. For all membears there are many Giveaways. Collabs!

04. Phase

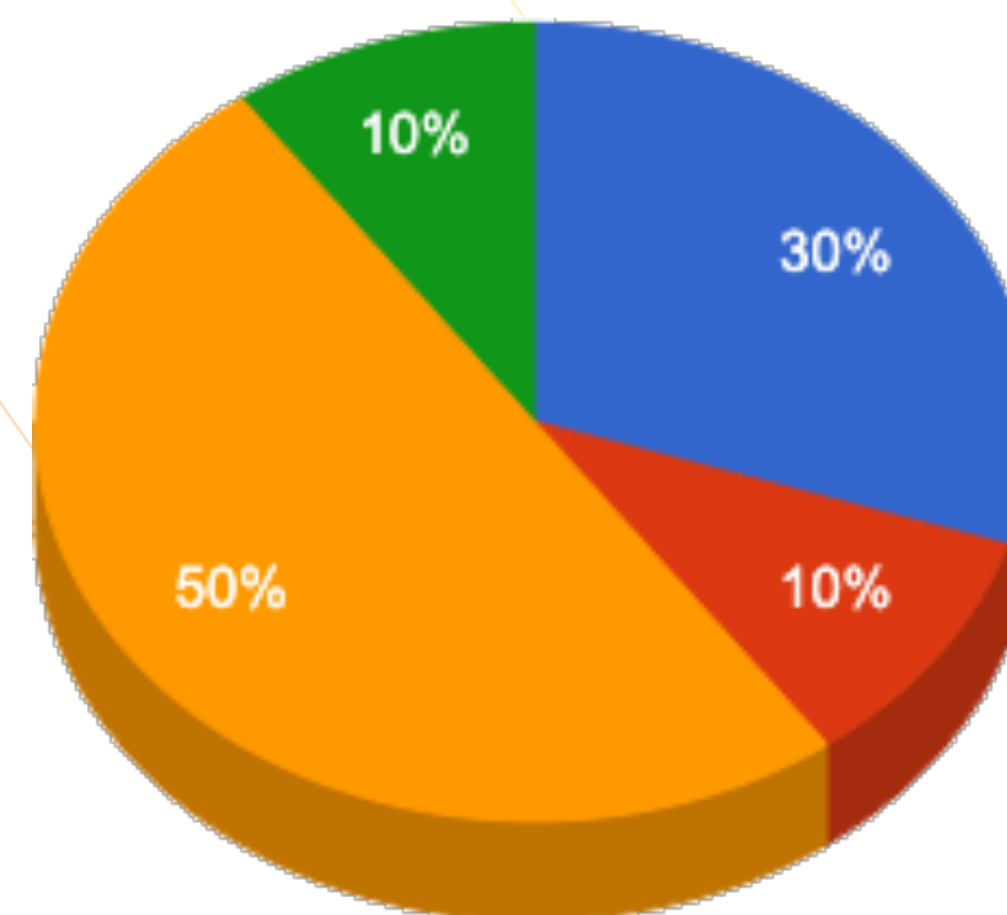

After successful mint and incorporation. Phase four is where membears will enjoy the giveaway. Community pools for donations will take a place on our discord and twitter. Development of \$HONEY token and Roadmap 2.0. To top it all off, Sick merch for the fashion-savvy or just Members keen on showing off. I'm honestly of the latter kind.

Funds.

We want to be transparent.

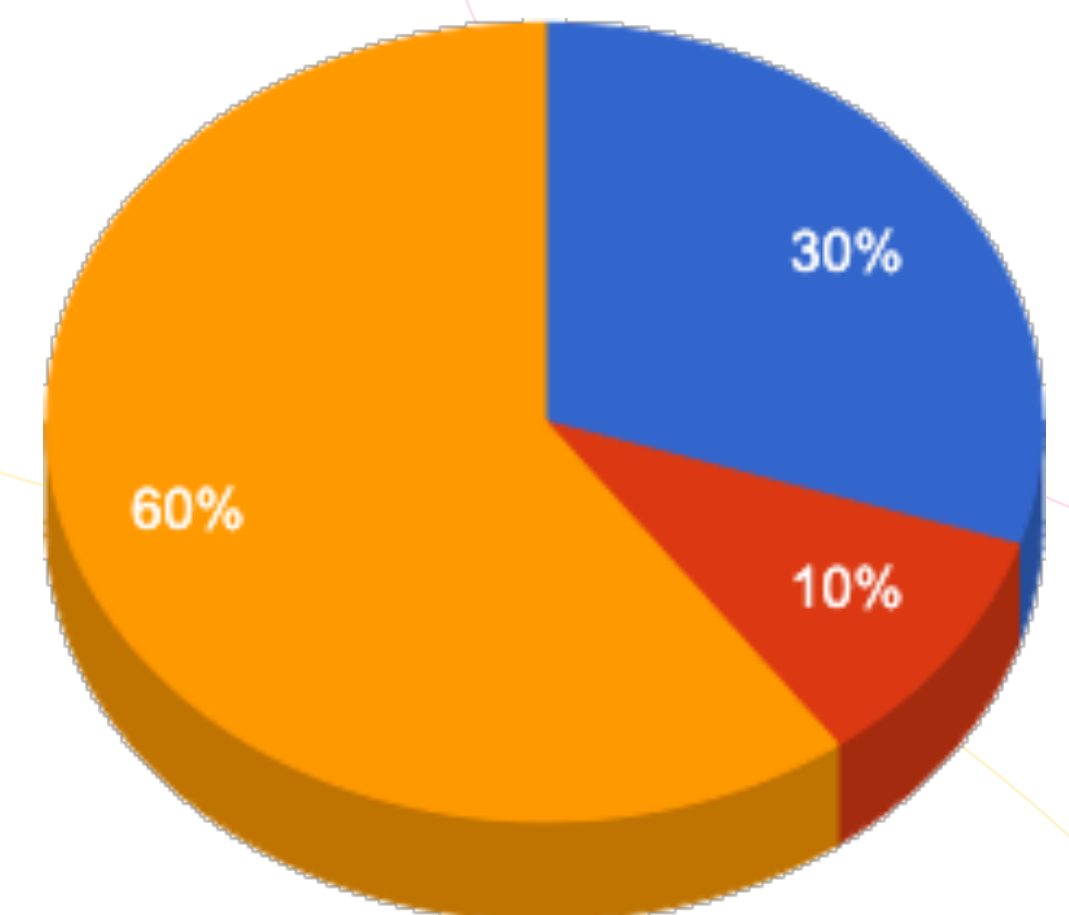

Project treasury will be protected by Papa Bear. We have big plans, we are not another NFT PFPS. We are Pixie Bears. Through many extremely fortunate coincidences, we were able to assemble a team more than willing to grind together with the community. We put a lot of love and time into the project. We will donate 10% of the minting funds to various charity organizations selected by the community. All project treasury will be used for further project development.

Minting Funds

- Project Treasury
- Team Expenses

Royalties

- Incorporation Fund
- Charity Donations

Merch.

Pixie Bears will drop a collection after minting that will be too dope to be the true. In collaboration with Street Artists and Graffiti writers from the United Kingdom, Germany, Swiss, Brazil, Mexico, France, and Italy. Half of the profit from merch will go to the various charity organizations chosen by community voting.

Finest Materials.

Finest Art.

From streets to street, with love.

Team.

Chewy [🐦]

DEVELOPER

Chewy is chewing code and design. With a decade of experience and nonstop grind. Basically, Chewy is Keanu Reeves of our team.

Whopty J [🐦]

LEADER

Papa Bear, the crypto forest is his turf. All BTC and SOL trades go through him! Even if he's a bear, he's bullish all the time.

Shelly [🐦]

ARTIST

Our gurl Shelly is drawing this amazing art. Talent, some people are just born with it. She's a gorgeous diamond in the rough.

Trif [🐦]

PUBLIC RELATIONS

You read it here, Trif wrote it. Quite famous yet too humble to break his anonymity.
